# Letter from the President

Office of the President

May 20, 2011

To the Class of 2011—

It is with great pleasure and pride that I congratulate each and every graduate of the Class of 2011. You have achieved much through your hard work, commitment to learning, supportive relationships with each other and a genuine desire to succeed.

I also wish to express my deep gratitude to the faculty and staff of Saint Michael's for their enduring dedication to the College and to the Class of 2011. Their involvement has been integral to the process of your lifelong education. In turn, the institution has benefited from your presence during the past four years. This volume of the *Hilltop* will always be a positive reminder of and tribute to our shared experiences from your years here at Saint Michael's College.

It is my earnest hope that your Saint Michael's experience will continue to enrich your lives far into the future. You have my best wishes for success in all your endeavors.

Once again, congratulations!

Yours sincerely,

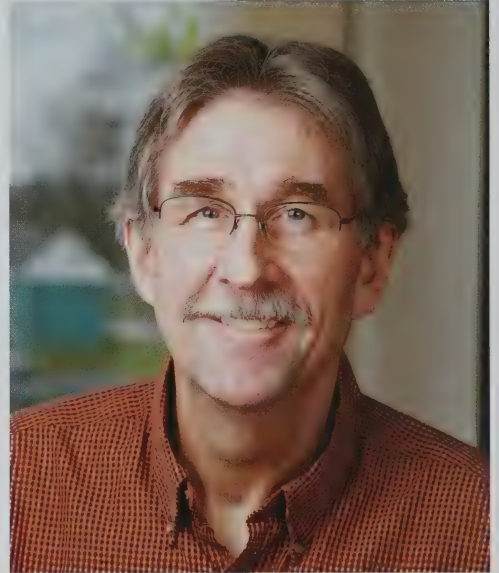

John J. Neuhauser  
President

# 2011 Hilltop Dedication

This year's Hilltop Yearbook is being dedicated to Professor Doug Green.

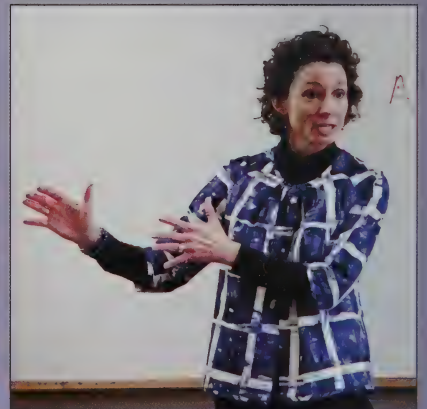

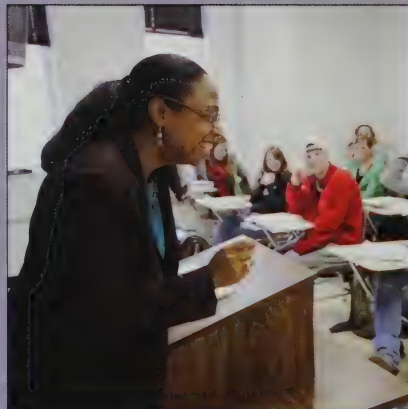

Professor Green was a highly respected and beloved member of the Saint Michael's Biology Department who passed away on March 18, 2011 after a long and courageous battle with cancer. He was born on January 30, 1953 in New York City and graduated as valedictorian from Saint Augustine High School. He earned his bachelor's degree in biology from Stanford University in 1975, and a Ph.D., also in biology, from Princeton University in 1980. Professor Green also earned a master's degree in computer science from Worcester Polytechnic Institute in 1986. He met his future wife, Donna Bozzone, in 1978 when she began her graduate work at Princeton and they married in 1982. Both found their way to Huntington, Vermont and settled in with their two daughters, Samantha and Allison. In 1987, he became a professor at Saint Michael's College, first in the computer science department and then in biology alongside his wife. As a devoted father, husband, and teacher, Professor Green always kept a positive attitude and outlook on life even through the most difficult of times.

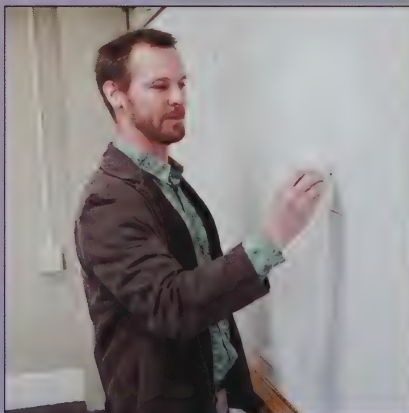

Professor Green touched the lives of every student he taught and even those he simply shared an interaction with. He always took the time to know his students beyond the classroom and aid them in their life's pursuits. Professor Green inspired all of his students that they could do anything they set their minds to. No matter the environment, Professor Green always shared his passion for science and for life in general. Professor Green meant the world to his students, to who he taught so much more than just the course material; he provided us with advice and wisdom that gave many of us the drive and confidence to pursue our dreams after graduation. He exemplified the sense of the Saint Michael's community by having an open door, an open mind, and an open heart.

It's an honor for the yearbook staff to dedicate the yearbook to Professor Green for his legacy will always be preserved in this book, as part of the all the wonderful experiences that made the senior class's time here at Saint Michael's so meaningful and so valuable.

# Letter from the Editor

To the Class of 2011,

Congratulations, we've graduated! It's hard to believe we are now Saint Michael's Alumni and have this yearbook to serve as a constant reminder.

Organizing the yearbook helped me further realize how diverse yet united our graduating class is. We may not all participate in the same clubs, sports, and classes, but we all still shriek at the first Vermont snow and treat P-Day with a higher importance than a national holiday. While we may face years apart, the friendships we have made here will last a lifetime. Receiving our diplomas was like signing a contract to be a permanent member of the St. Mike's community because while our travels may lead us far from 1 Winooski Park, our four years worth of memories will always be keeping us here. I wish upon all of you that uncontrollable urge to smile whenever you think of the first venture to the 3s, the first all-quad snow fight on the library lawn, the confusion and excitement felt on the first P-Day, the satisfaction and pride felt after acing a test, the rush of capturing every moment of senior week, and the mutual understanding that our final goodbyes were more like "see you later."

I would like to thank the following people in their constant aid in the creation of this yearbook: Sarah Gagne, Grace Kelly, and Seth Cole. I would also like to thank the yearbook staff especially our seniors, Shannon Fergus and Kelly Higgins. A final thanks goes out to all the senior class members who took the time to contribute their own memories to this book.

Class of 2011, I wish you all the best of luck and hope that you continue to look at life in the way that you viewed our college years, as one big adventure!

Your Editor,  
Randy Breeckner

The layout, format and photography of the 2011 Hilltop Yearbook are the responsibility of the editor and staff members. The Hilltop is printed by Jostens of State College, Pennsylvania in an edition of 550 copies with a trim size of 9 x 12 and 208 pages. The Jostens Representative was Matthew Clark and the in-plant consultant was Dee Skelton. The yearbook advisor was Sarah Gagne.

The 2011 Hilltop Yearbook is printed on 100-pound gloss paper and has recycled oxford white endsheets. Purple foil 390 was hot stamped to the endsheets. All pages are printed in full color with a line screen of 175.

The cover art was created by Becky Colley, Saint Michael's College Graphic Designer. The cover is created using royal purple 518 material with fox fur grain applied. White 325 silkscreen was applied.

Paper is a key raw material used in the production of Jostens' yearbook and memory book products. Jostens is committed to working with its customers in making environmentally educated choices about paper.

All paper used in the production of Jostens' yearbook and memory book products is purchased from paper companies that conduct business in a responsible manner by minimizing their impact on the environment. These companies have sound environmental policies and practices that address how their operations impact our air, water, land and forests.

All paper used in the manufacturing process comes from non controversial forests that are responsibly managed for sustainability, biodiversity of plants and animals, and for soil and water management.

These suppliers are members of numerous forest management associations and they participate in certification processes that vary by location and product lines that include: The American Tree Farm Society, The Sustainable Forestry Initiative, The Forest Stewardship Council, The National Council for Air and Stream Improvement, The Program for the Endorsement of Forest Certification and many others.

All pulp used in the production of our paper is elemental chlorine free.

Jostens makes efforts to recycle all waste paper, cardboard and aluminum used in the manufacturing process in addition to comprehensive recycling in office environments.
